Sir,

I have considered the nature of the information received concerning the voyage to New-York by Captain Leanby last Summer, and apprehend the whole transaction may be fully proved if Mr. Robert Logan has permission to go into New-York. I must therefore request Your Excellency to grant him a Pass-conduct or Passport to go into New-York, especially with a view to this affair, but also from an expectation that other discoveries of the same nature may be made.

Philadelphia. I am, Sir, with great regard

most obedient humble servant.
